there exists the ideal growing area for the vineyards that give origin to a Chardonnay. It is the unique combination of altitude, dry soils, sunny climate and cool breezes from the Andes that allows the Chardonnay grape to become its most expressive.

Golden yellow with greenish highlights. Its fresh and fruity profile reveals notes of white flowers as jasmine in harmony with pear, white peach and pineapple aromas. Presence of slight toasted and sweet notes of vanilla and honey. Fresh and balanced with toasted hints and a persistent acidity.
